 HALF MASKS POLIMASK 2000

# Polimask® Alfa

Half mask in EPDM or Silicone rubber for use with one Sèkur filter series DIRIN 230-DIRIN 300.

## DESCRIPTION

Half masks made in one size only fitting all faces, complying with **EN 140** and therefore with the local European countries' standards. Equipped with screw in connector **EN 148/1** for use with dust, gas, vapour, and combined filters and with breathable air supply systems.

## MAIN FEATURES

- Adaptability to any kind of face with a good sealing ability (approximately 0.5% leakage).
- Low breathing resistance (< 1,2 mbar during inhalation, < 2 mbar during exhalation, at a rate of 160 l/min).
- The component materials are not likely to cause allergies or irritations.
- Easy donning and doffing.
- Easy maintenance, washing and disinfection.
- Compatibility with the use of glasses and goggles.

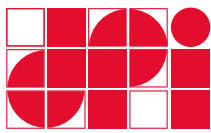

Elastic textile harness system that does not capture the hair, combined with soft resin elements synthetic that ensure a stable positioning on the neck.

Body mask in EPDM or silicone rubber.

Large internal sealing flap that allows a perfect adaptability to the face and an excellent seal.

Fitting with filters Series DIRIN 230-300
